Dear

Thank you for your interest in seeking to have your battery product approved for Solar Victoria's Solar Battery Rebate program.

I have finalised your assessment of the **GRE-U-P4880-1** battery system and pleased to confirm this product has been approved for program participation.

This product is eligible to participate with any of the 50 inverters you've listed as compatible with this Battery System. A full list of these compatible inverters can be found at the bottom of this letter.

As discussed, we will now work to add these products for program participation and our battery list on our website.

This product refresh is intended to occur by **21 March 2023** at the latest and will be eligible for program participation once this refresh has occurred. I will provide you a courtesy email to confirm when this has taken place.

If you have any questions or concerns, or wish to submit a new application for a product assessment, please email us at battery.products@delwp.vic.gov.au

Kind regards,

James Ovens
